

NUTRAFOL

Women's Hair Growth Nutraceutical

A daily hair growth supplement, physician-formulated for women with standardized vitamins, minerals, and natural ingredients to target key root causes of thinning such as stress, lifestyle triggers, and nutritional gaps for faster-growing, thicker, fuller, stronger hair. ^(1, 2)

Who This is For:

Women who are 18-44 experiencing signs of hair thinning and shedding.

Key Benefits:

- Visibly thicker volume ⁽²⁾
- Visibly less shedding ⁽²⁾
- Fast-growing, longer, and stronger hair ^(1, 2)

Women Also Reported:

- Visibly thicker lashes and brows ⁽²⁾
- Reduced feelings of stress and improved sleep quality ⁽²⁾

Point of Difference:

- #1 dermatologist-recommended hair growth supplement brand.*
- Physician-formulated. Clinically tested. Science-backed.
- Nutrafol's proprietary blend of bioavailable ingredients synergistically targets multiple bio-specific root causes of hair thinning for women.
- 21 standardized ingredients to ensure the same potency in every serving.
- Responsibly sourced ingredients from all over the world and manufactured in the United States.

How to Use:

Take 4 capsules, all at once, once daily with a meal.

When To Expect Results:

Hair growth takes time. You can expect to see visible improvements in 3-6 months with consistent use of our efficacious daily dosage.

1-3 months: Vitamins, minerals, and botanicals are replenishing and nourishing the body from within, strengthening the hair follicle, and lowering stress levels to promote a healthy hair growth cycle and reduced hair shedding. ^(2,3)

4-6 months: Your supplement is addressing the root causes of thinning from within to support a lengthened hair growth cycle as you continue to see less shedding plus thicker, stronger hair that is growing faster. ^(1,2)

6 months and beyond: Continue to manage the root causes of hair thinning to maintain your hair growth results.

What Else You Need to Know:

When hair thinning and increased shedding occurs, it's due to underlying imbalances within the body. Our 21 key ingredients work in synergy with each other and the body to help balance stress and hormones, provide essential nutrition, fight environmental aggressors, and help support internally so you can grow visibly thicker, stronger and longer hair by addressing the root causes of thinning.

Our Patented Synergen Complex:

Ashwagandha: A high concentration of plant actives derived from the leaves and root of the plant that perform stress-relieving benefits to reduce hair shedding. ⁽³⁾

Marine Collagen Peptides: Peptides that provide the building blocks of strong hair fibers, while delivering hydration to the scalp. ⁽⁴⁾

Tocotrienol Complex: A concentrated form of vitamin E, a super antioxidant that fights against environmental stress to improve hair density. ⁽⁵⁾

Curcumin: An antioxidant that targets imbalances in the body to support healthy hair. ⁽⁶⁾

Saw Palmetto: A high concentration of fatty acids that reduces the conversion of testosterone to DHT to improve hair growth. ⁽⁷⁾

Physician-formulated. Free of gluten, dairy, soy, hormones, drugs, gelatin, artificial colors or flavors. Non-GMO certified. Halal. Recyclable bottle made of 30% PCR glass.

*According to IQVIA ProVoice survey for 12 months ending March 31, 2023.
